ABSTRACTED-PUB-NO: CN 1090752A

BASIC-ABSTRACT:

A face mask cream is prepd. by decocting Chinese-medicinal herbs including red jujube, alismatis rhizome, dahurian angelica root, lucid ganoderma, bletilla and red sage root to obtain a decoction, removing residue from it, mixing it with Job's tears seed powder and adding essence.

USE - The face mask is applied onto the face to form a film (1-1.5 mm in thickness) and left for half an hr. The face is cleaned by hot or clear water, curing e.g. wrinkles, spots and allergic dermatitis.
